Hazardous Tree Removals
Approved for removal by Township Arborist

12 Welwyn Lane A replacement tree was requested

38" Red Oak - 65% dead, fruiting bodies on the trunk and trunk decay is evident

215 Midland Avenue 9 shade trees and 3 small flowering trees were requested

40" Ash – extensive decay in trunk, decayed root flares and heavy lean toward the street
26" Red Maple – extensive day in trunk
42" Pin Oak - obvious fruiting bodies in limb wood, a threat to both the neighbor's house and this house
29" Red Maple = deep trunk wound @ 15'
28" Sugar Maple – obvious decay in trunk
38" Red Maple – extensive decay in trunk
45" Silver Maple – tree is only 40' tall as it has been cut way back over the years – trunk decay
15" Norway Maple – dead

362 Conestoga Road 46.5" Black Cherry
Heavy lean towards road, die-back, (2) rotted and decayed cavities in base 2ith evidence of carpenter insects, additional rotted cavity up trunk, fallen limbs, ivy covered
This tree was within the ROW of a state road PennDOT, not Township jurisdiction
