Sketch Plan

### Hazardous Tree Removals

# Approved for removal by Township Arborist

# 406 N. Wayne Avenue

Approved for removal

Pin Oak

Tree is in decline

## 900 Parkes Run lane

Approved for removal

Beechtree – 42" dbh

Half the tree is dead and dropping limbs onto the roadway. The tree also has Phytophthora Disease.

# **517 County Line Road**

Approved for removal

Black Oak – Quercus velotina 42" dbh

Severe rot and decay on trunk and down into root collar; large hollow cavity at base; high risk to family and passing cars.

### 798 Robinhood Road

Approved for removal

American Beech – 31" dbh

Extensive Phytophthora damage on trunk and at soil line; leader limb was cut back prior and has decay present at 50'.

## 254 Ravenscliff Road

Approved for removal

Ash - 44" and Ash 38"

Visual evidence of decay in trunk; both trees are susceptible to the Emerald Ash borer.

## 224 S. Aberdeen

Approved for removal

Tulip Poplar – 45 dbh, 100 ft.

60% dead, close to house and driveway

# 305 Audubon Ave

Approved for removal

42" Silver Maple

36.5" Red Maple

Both trees have recently lost limbs and have severe structural defects.
