RETIREMENT

A Business and Operational Plan for
The Willows Mansion

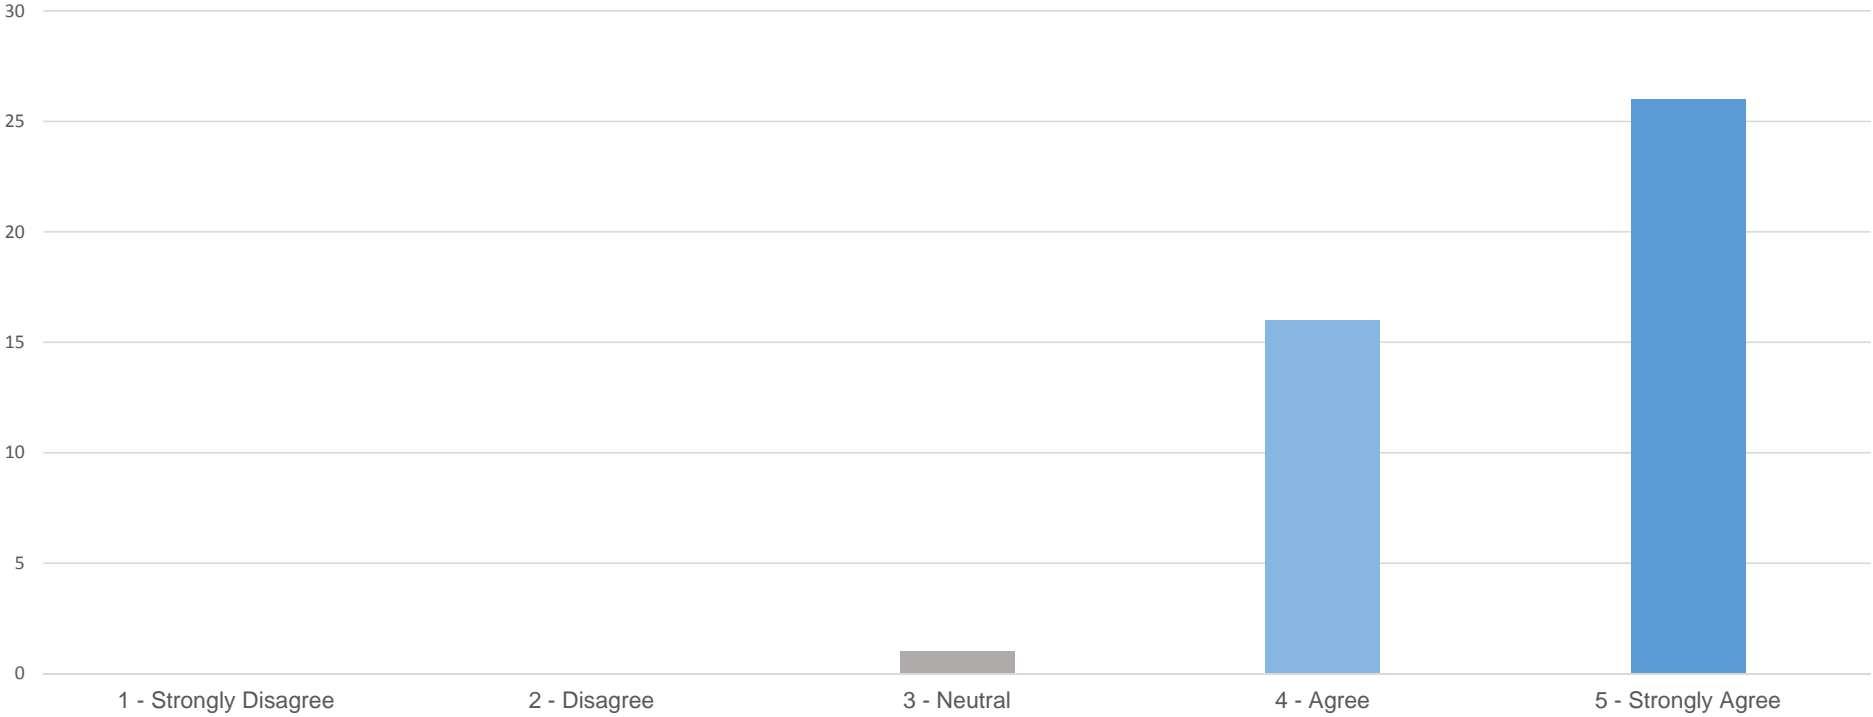

The future uses of The Willows Mansion should be primarily public.

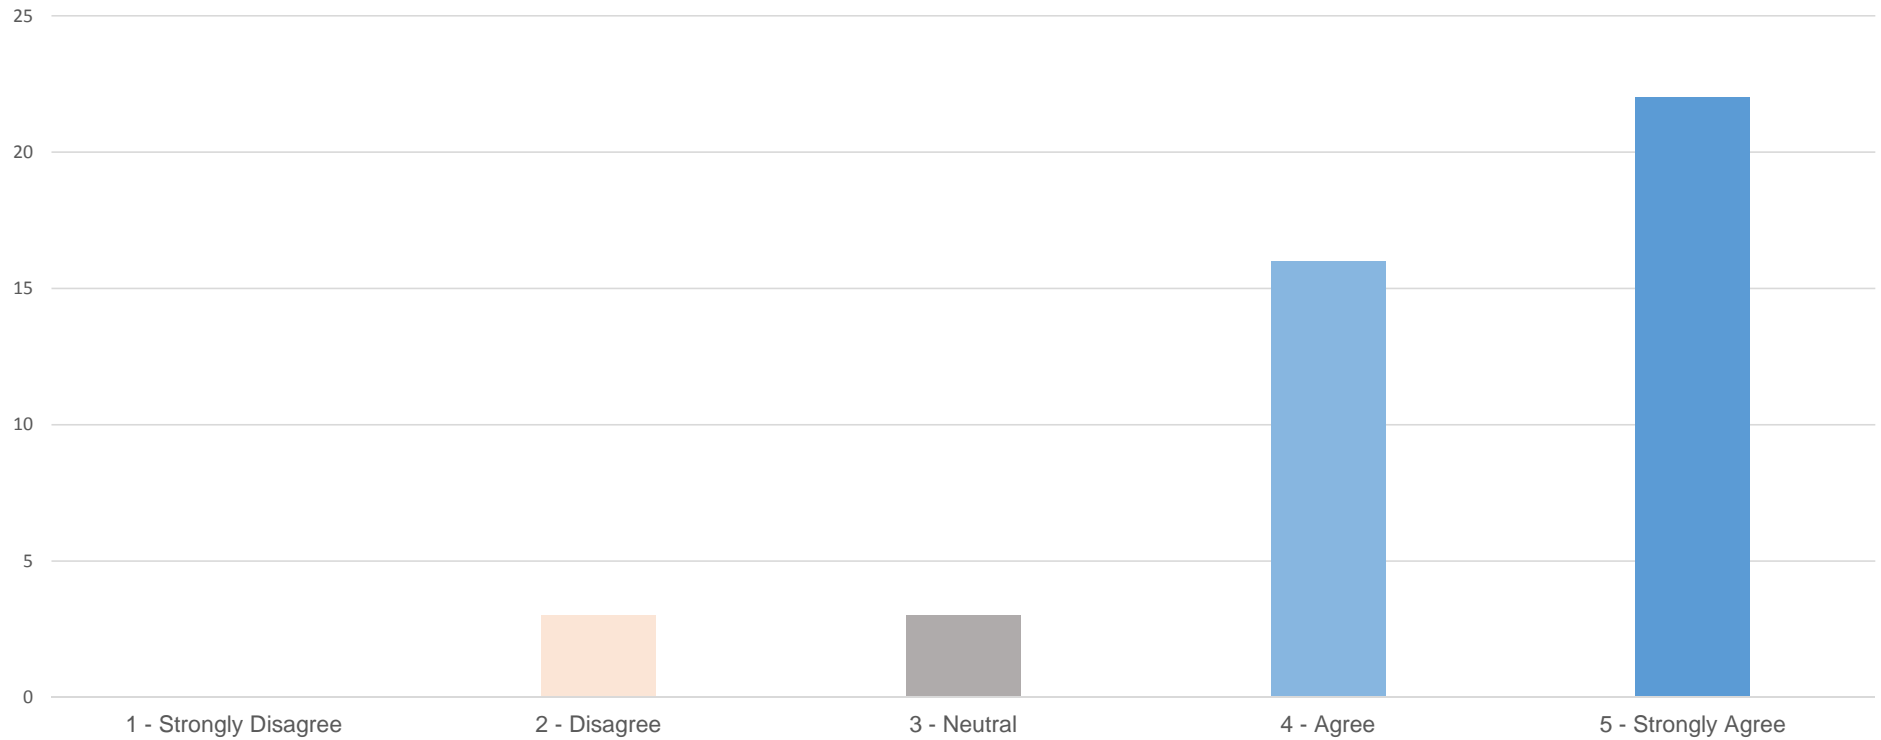

There should be no long-term leases to private entities.

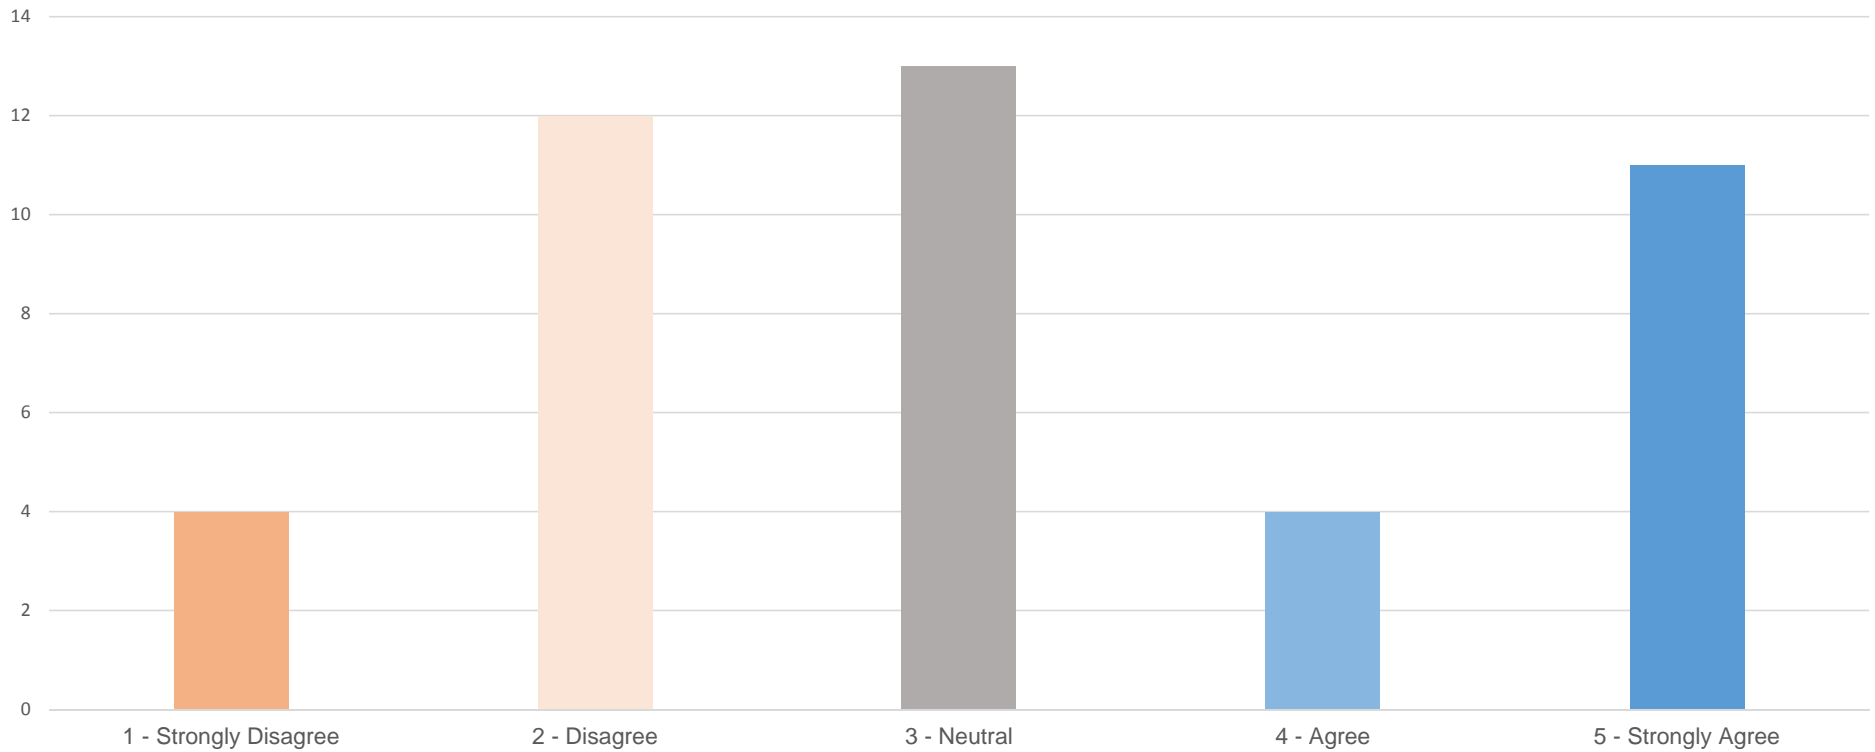

The business plan for the Mansion should allow for a wide range of event types typically ranging from 25 to 150 guests without creating excessive impacts on the park or buildings.

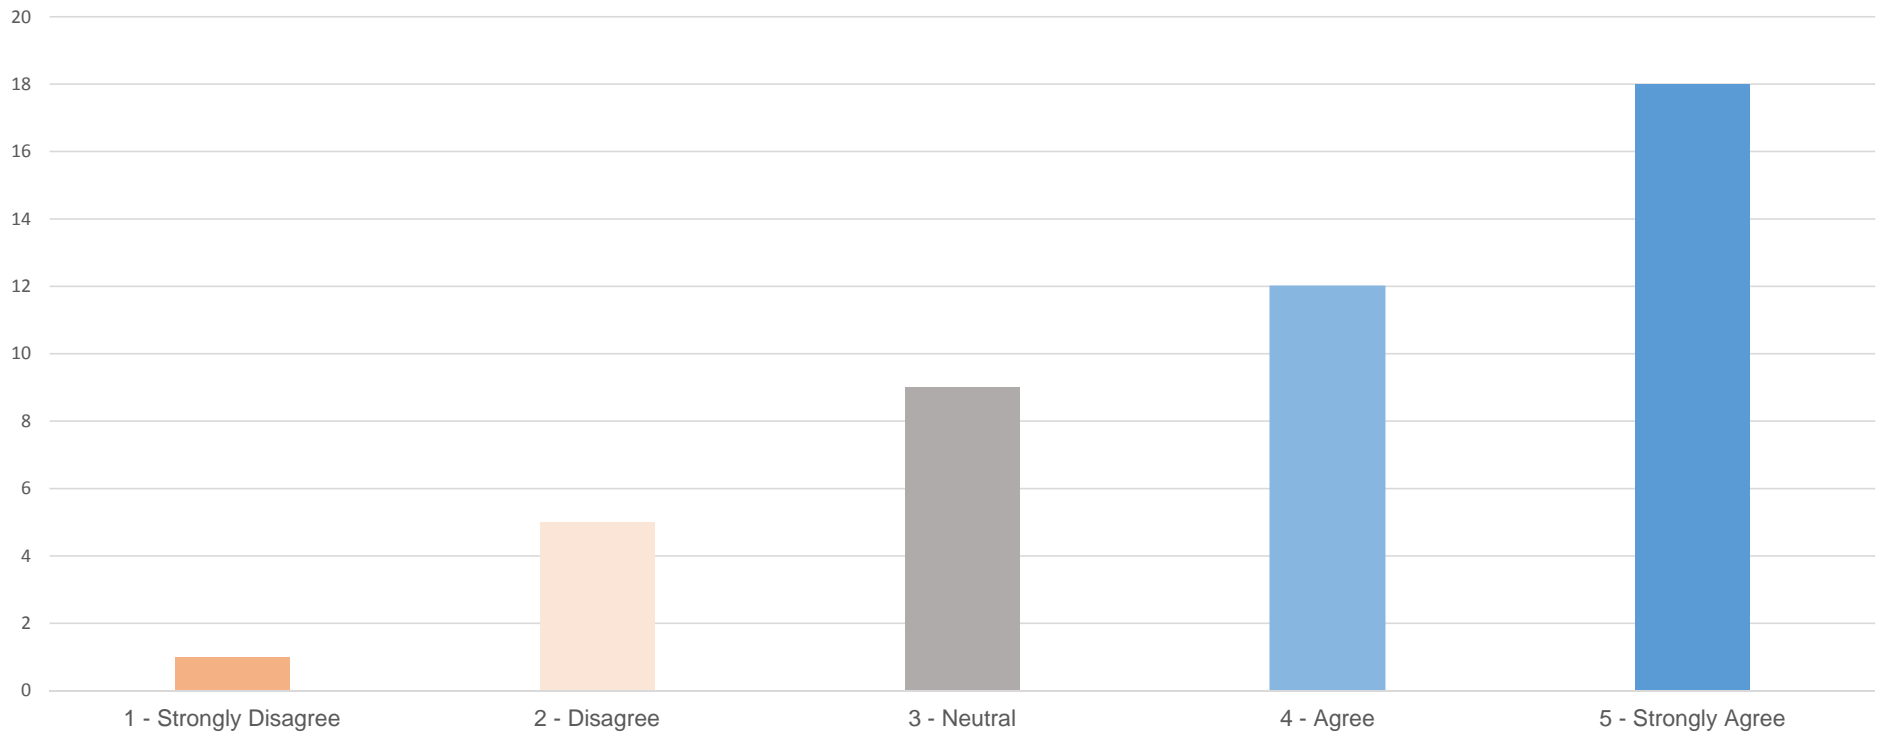

The plan for use of the Mansion should allow for a mix of free and revenue generating events to cover the operating costs for the Mansion.

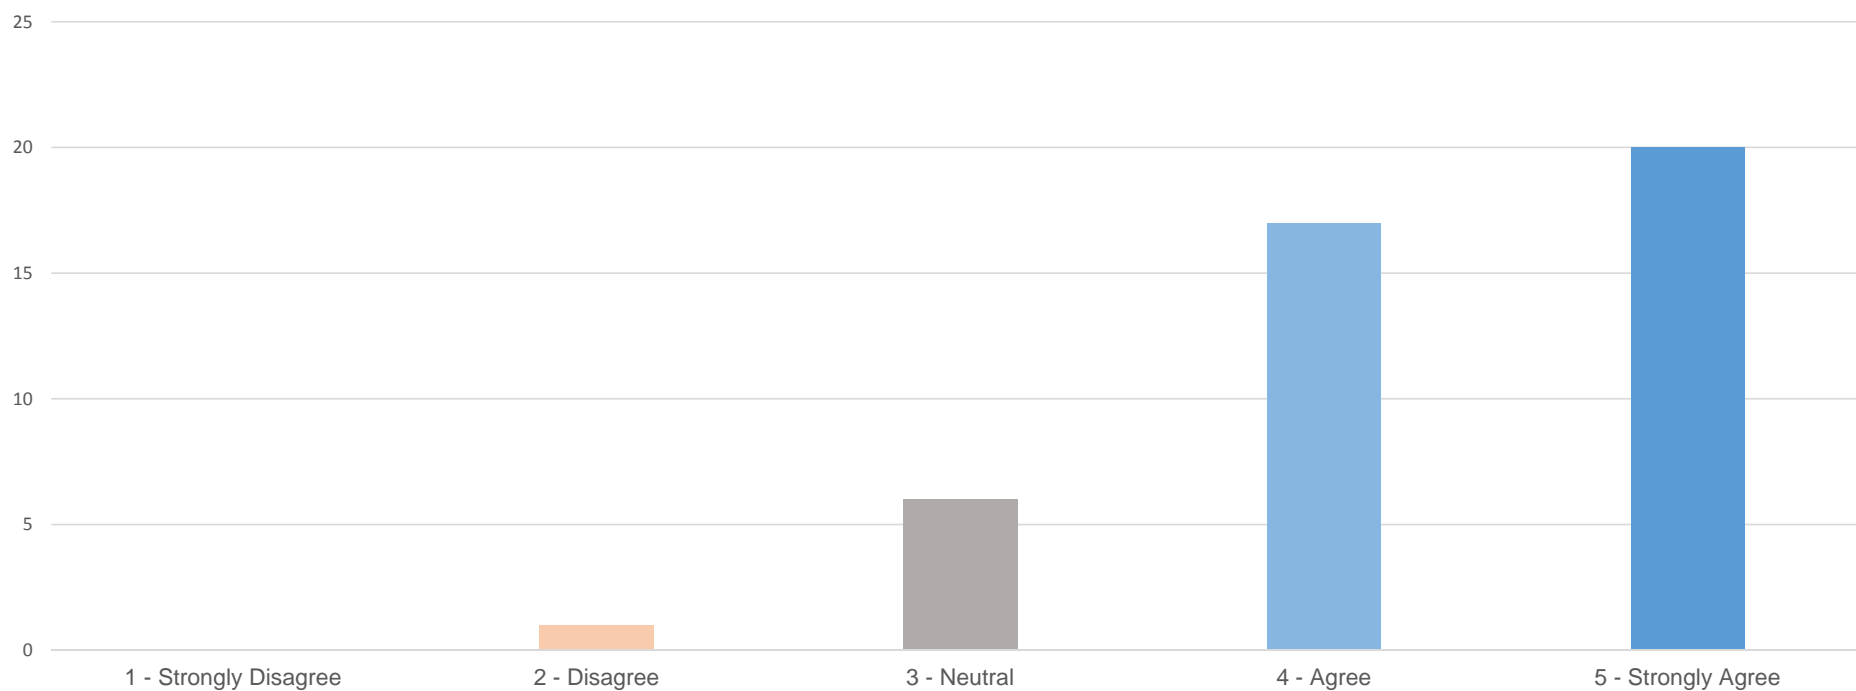

The plan for use of the Mansion should primarily focus on public events with low fees and the costs for maintaining the facilities should be primarily covered by Township funds.

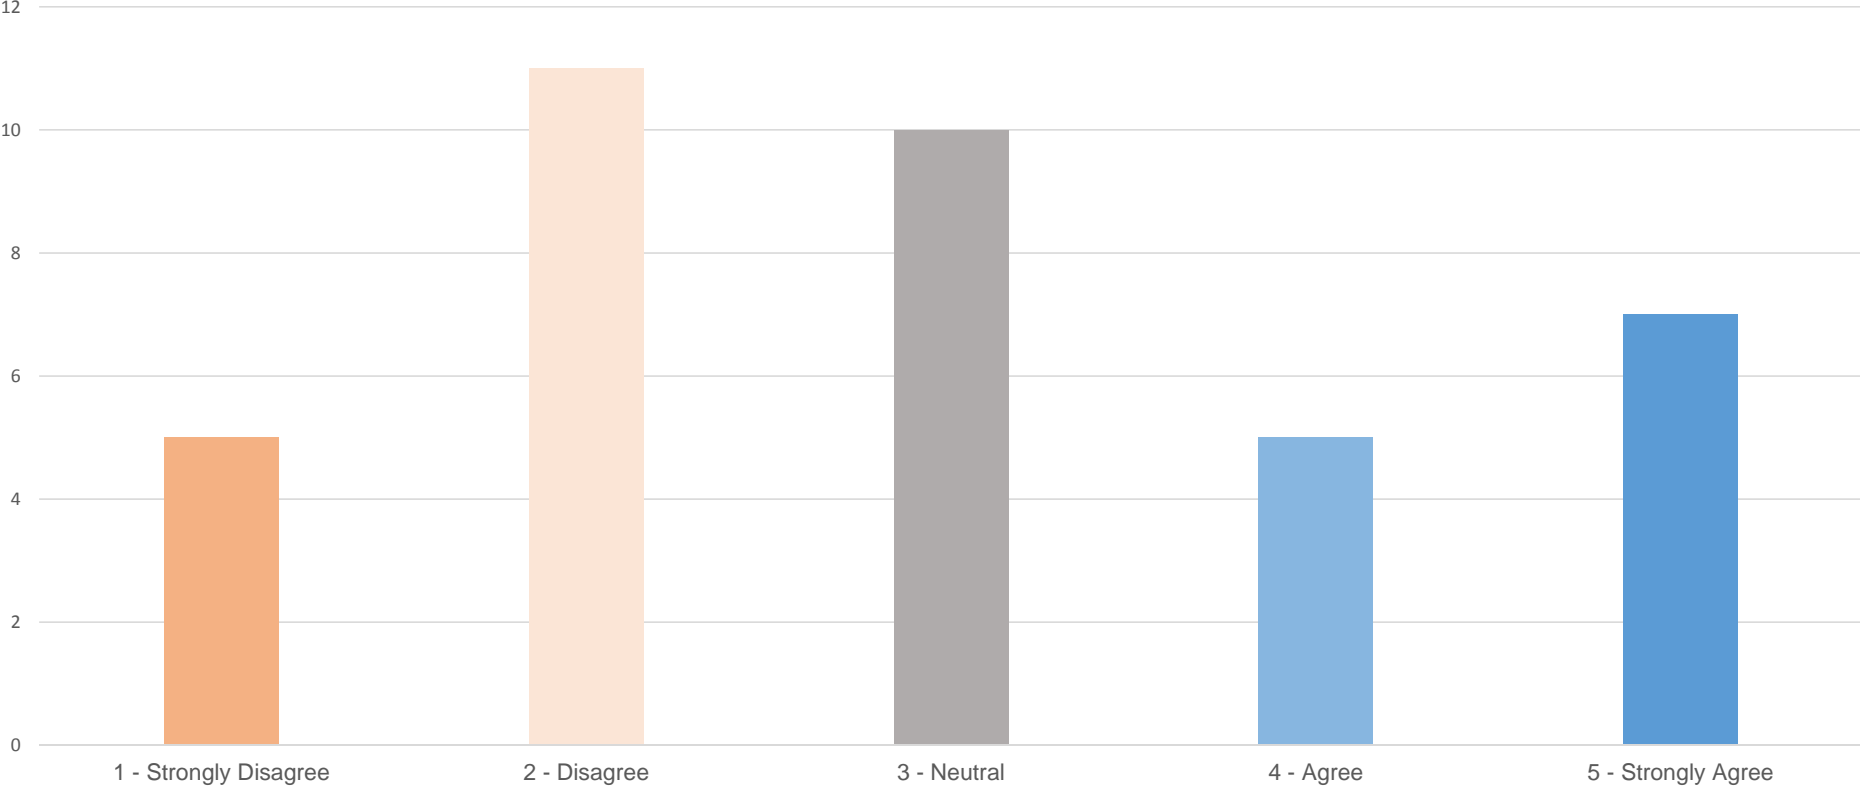

I understand and support the necessity of removing some walls on the first floor of the Mansion to allow for events of up to 150 guests.

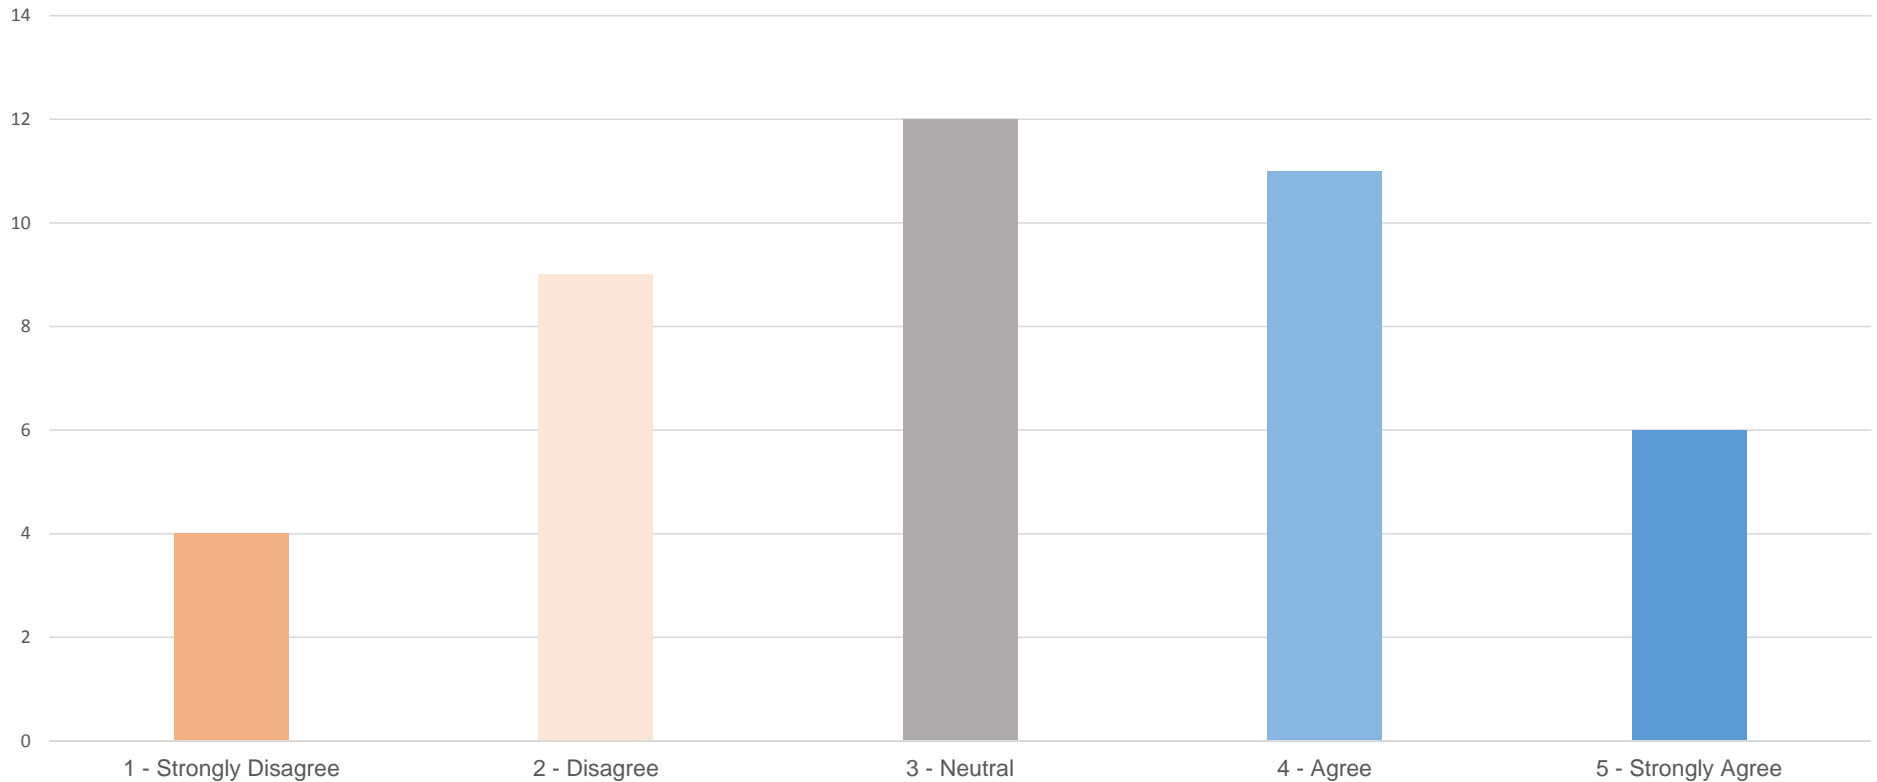

The Mansion terrace should be expanded and improved to allow for up to 150 people to enjoy the park views. Periodically, tents may be used to supplement the functions of the Mansion and Terrace.

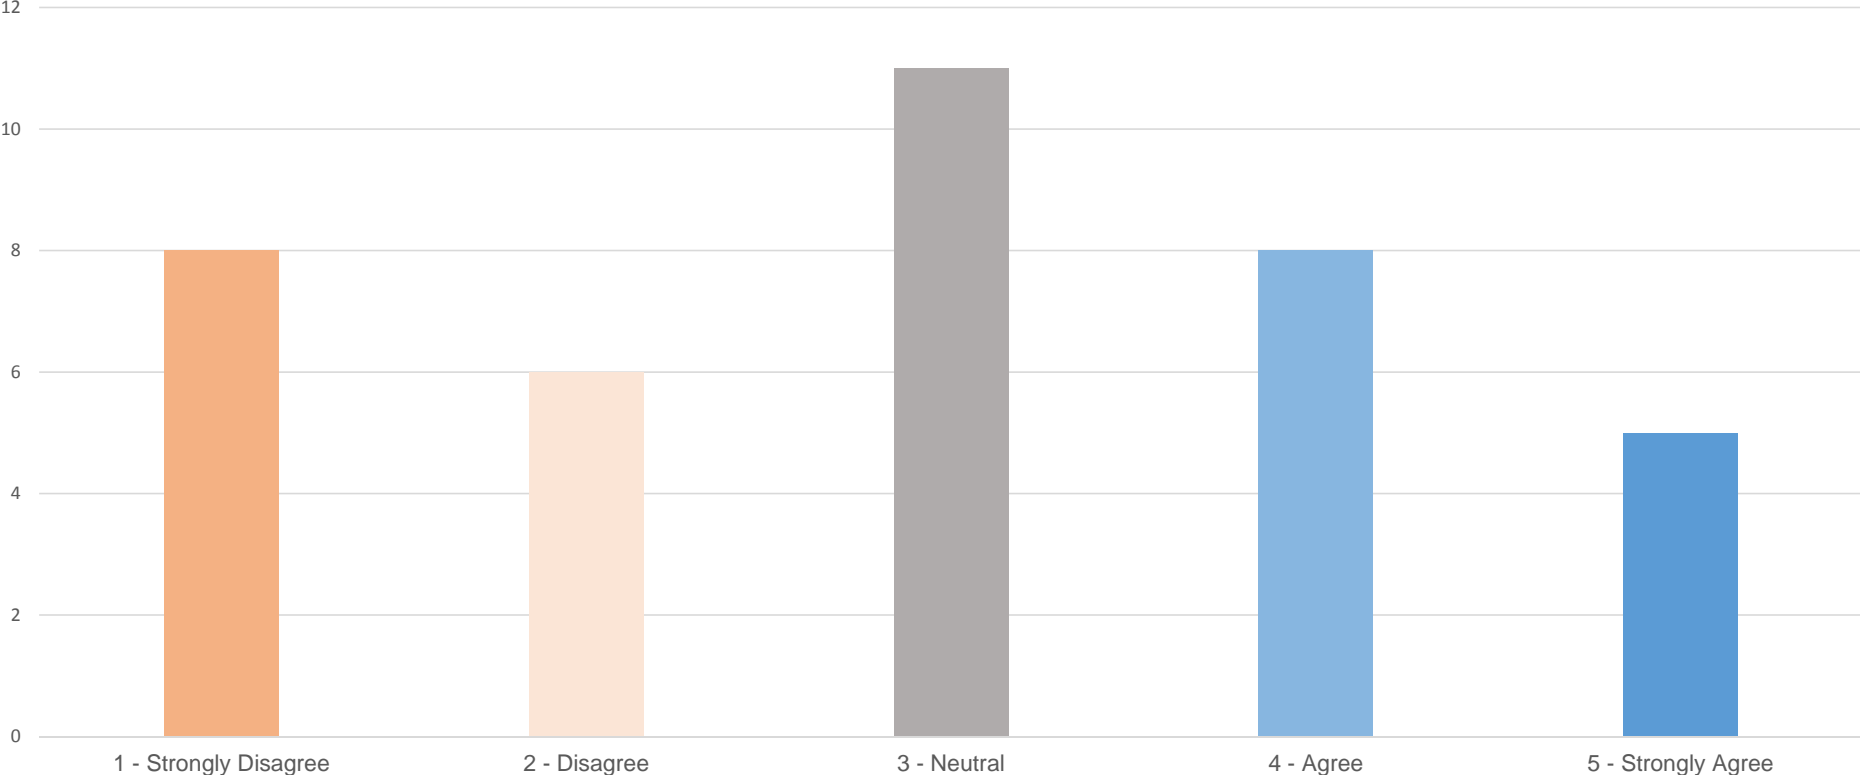

"Low-impact" use of the Mansion means a maximum of 20 events per year of up to 150 guests.

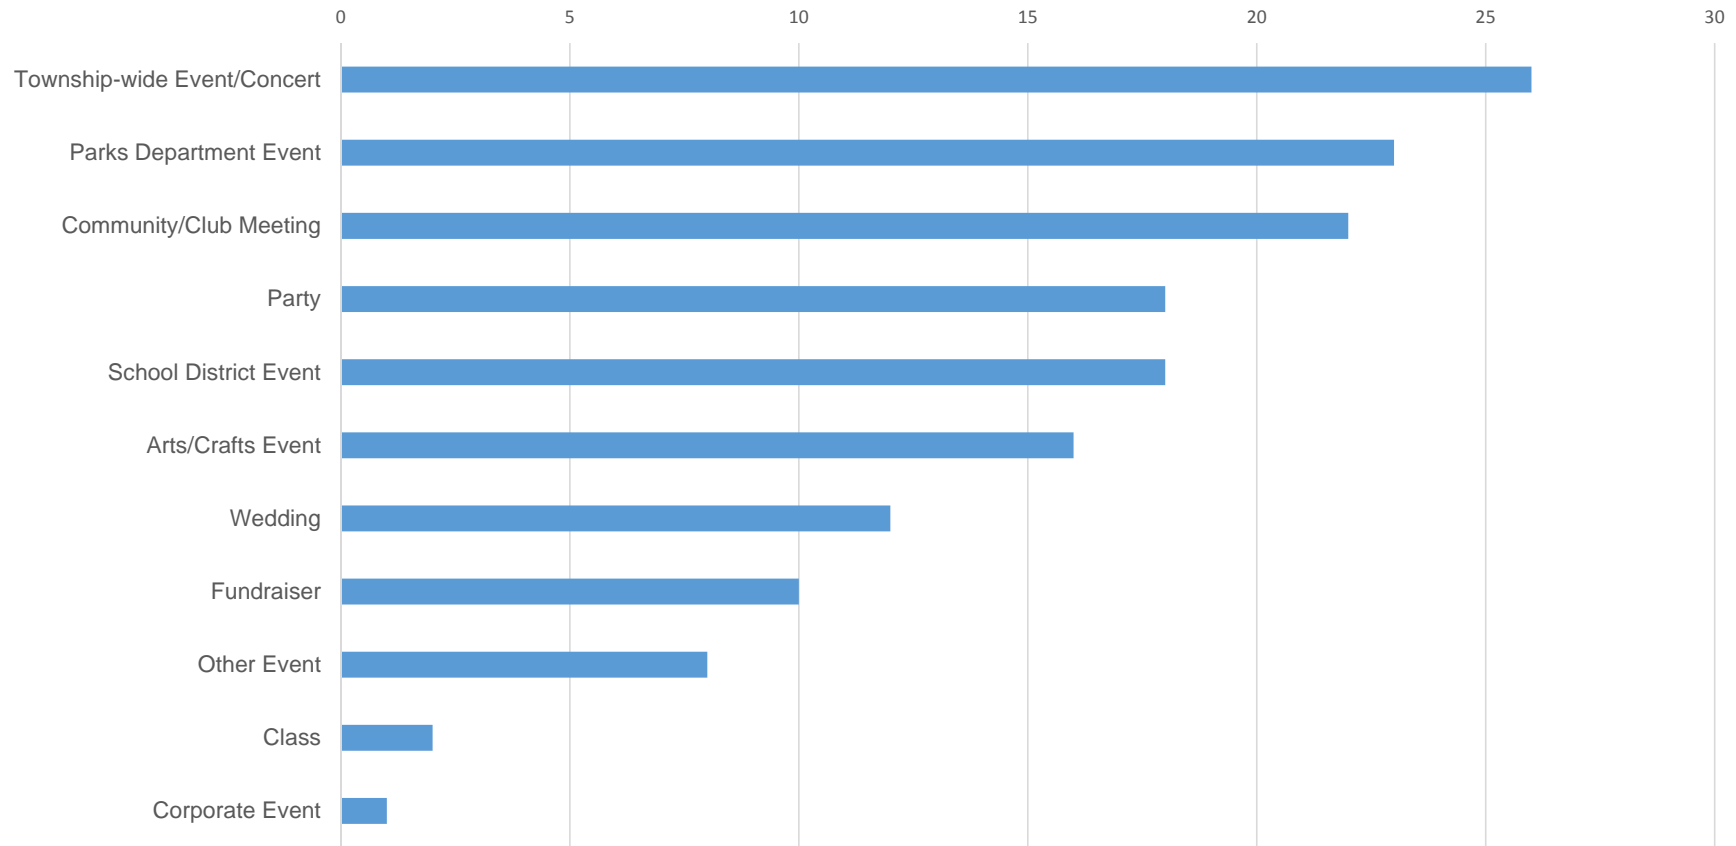

"Low-impact" use of the Mansion means a maximum of 30 events per year of up to 150 guests.

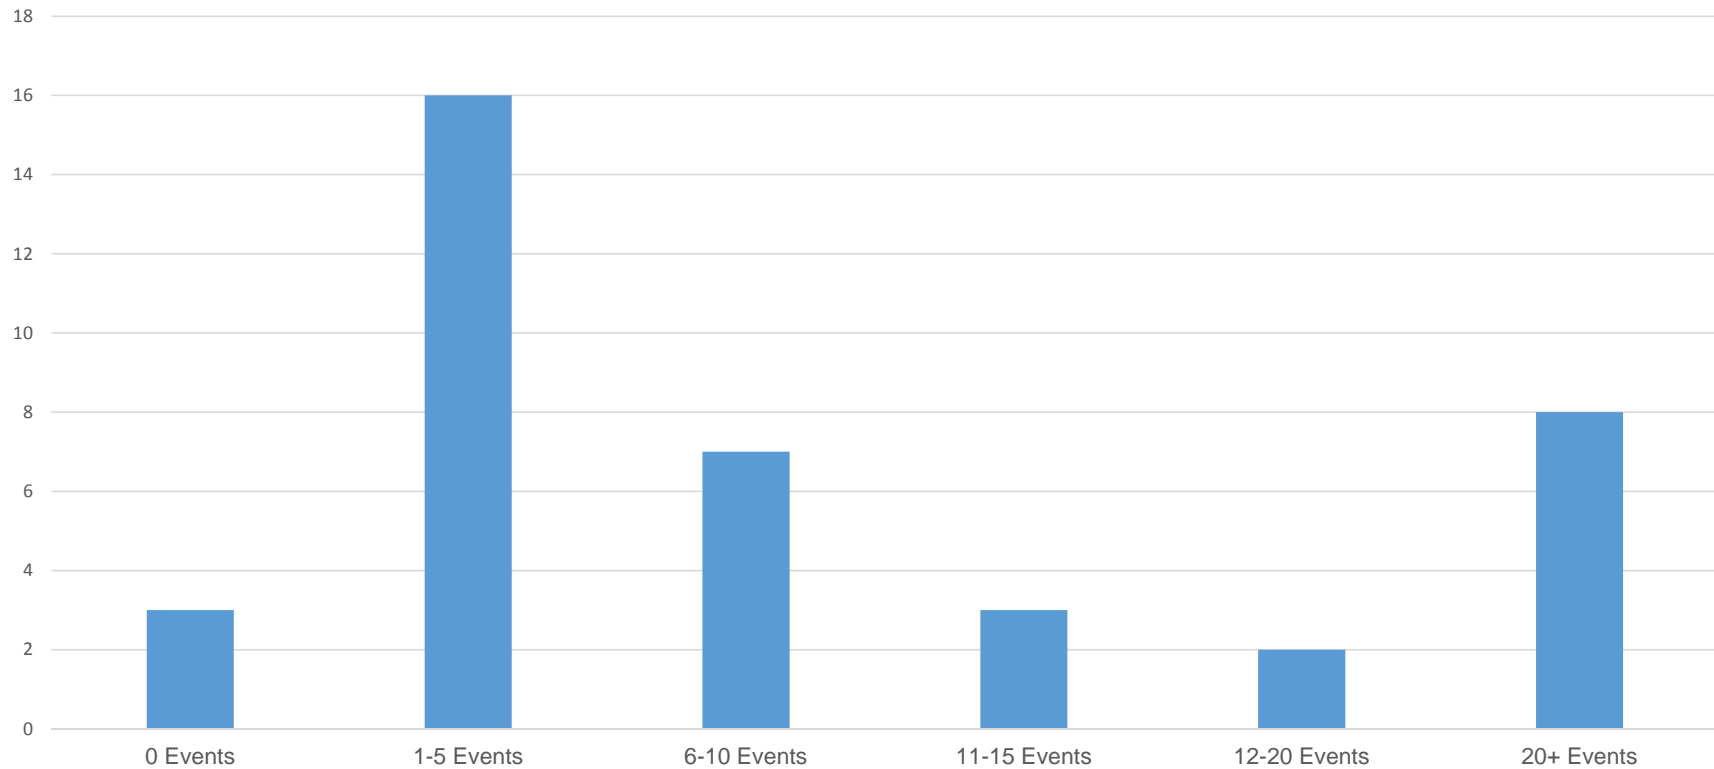

"Low-impact" use of the Mansion means a maximum of 40 events per year of up to 150 guests.

How have you used the Willows Mansion in the past?

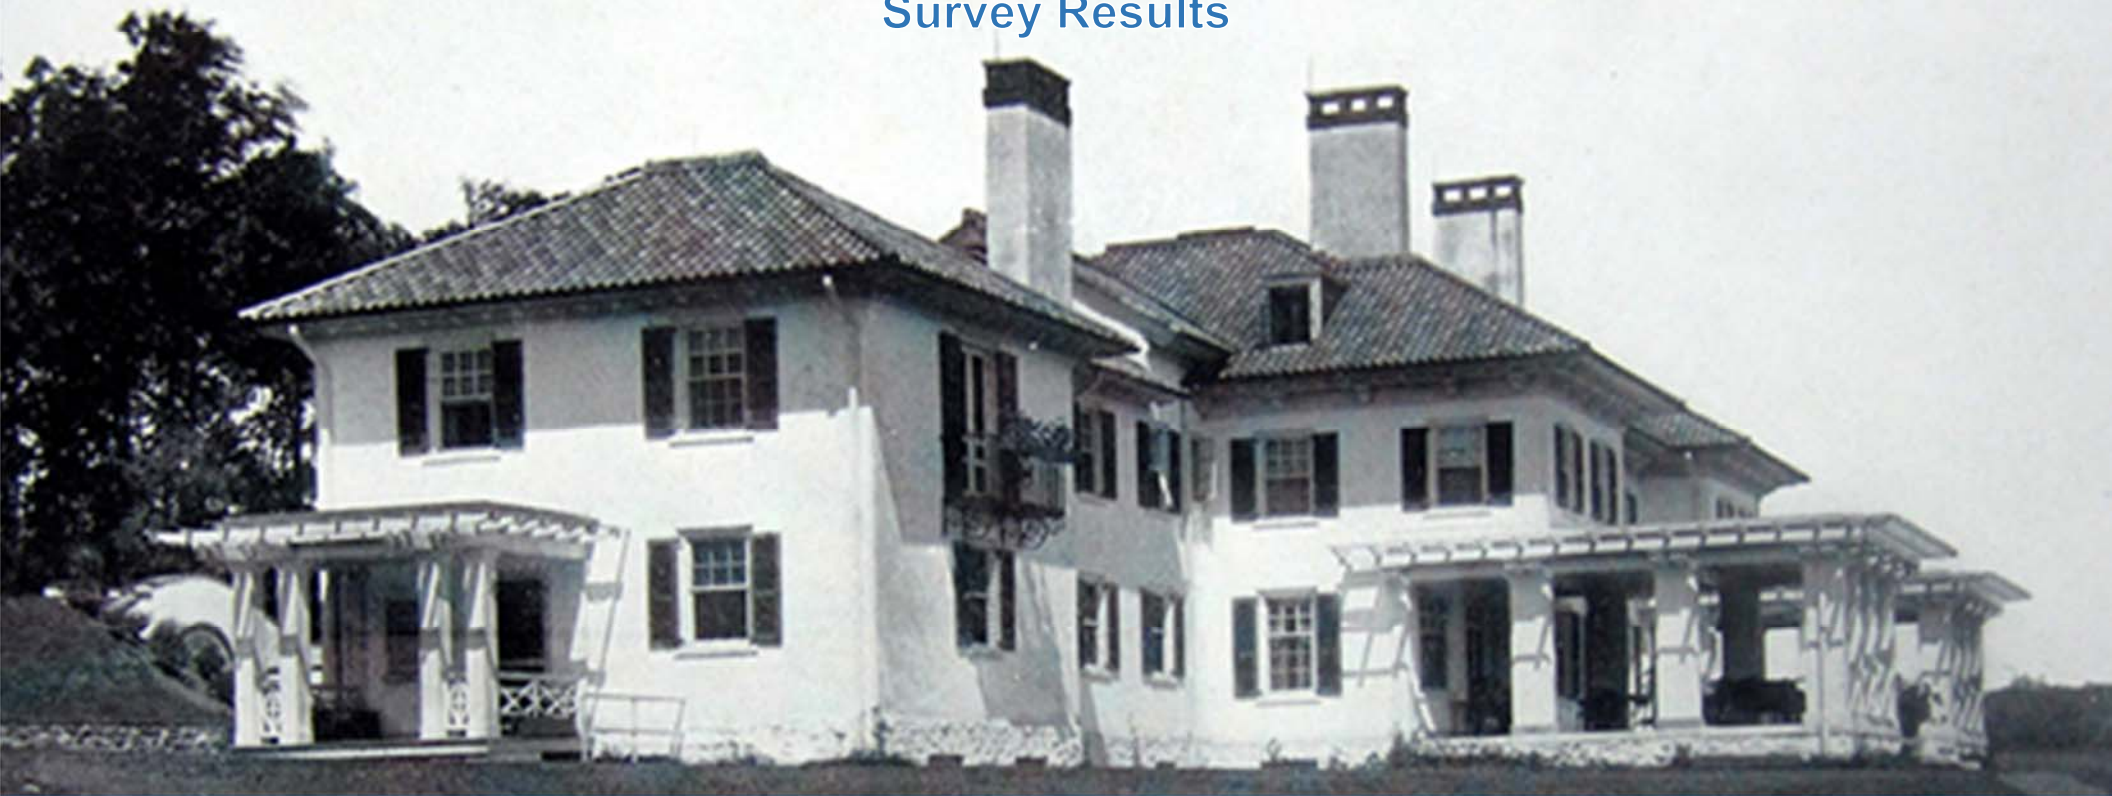

How many times have you or your family attended events at the Willows Mansion?
