Dear Radnor Day Camp Parents/Guardians,

Welcome to Radnor Day Camp 2023! Thank you for choosing to send your camper to RDC - we know you have many camp choices, but truly believe you have chosen the best! It's amazing that we are celebrating 82 years of a great Radnor tradition with Radnor Day Camp and we have a summer of fun activities planned for your campers!

This year, we would like to welcome back our Director, Jean Evans to Radnor Day Camp. Jean worked as our Camp Director last summer and was previously the Director of our Radnor Preschool Camp in 2016. We are thrilled to have her back! Jean has an extensive background in working with children with a degree in Elementary/Early Childhood Education from Temple University. She also completed her Master of Education with K-12 Principal Certification from Cabrini University. Jean is looking forward to bringing her high energy and fresh new perspective to Radnor Day Camp with integrity and leadership to facilitate a positive camp environment that meets the diverse needs of our campers.

The staff at Radnor Day Camp are honored to work with children year-round, dedicating their lives to kids through careers in education, recreational activities, and participation in a diverse array of youth-centered outlets. We take special satisfaction in bringing unforgettable memories to the campers who attend RDC each summer. Our goal each summer is to create an environment in which each camper feels safe enough to learn, grow, and be happy. We are proud of our solid reputation as an inclusive camp that meets the emotional and physical needs of its campers. Offering an array of activities such as arts and crafts, sports, performing arts, and swimming along with fun traditions like Camp Olympics, Performance and Art Show, and the Carnival, our campers enjoy a great opportunity to interact with others, have fun, and make new discoveries! This year we are excited that camp will again take place at Radnor Elementary School - a facility that has a lot to offer. Campers will also be bused to Club La Maison once again this year for swimming 1 to 2 times per week.

Attached are the essential materials to help you this summer—Camp Frequently Asked Questions & Information Flyer, Camper Code of Conduct, Trip & Event Calendar, Trip & Event Policies & Procedures, Radnor Day Camp Site Map & Floor Plan at Radnor Elementary School, Swim Program Information Sheet, and a Bus Stop Schedule (if you have elected to have transportation provided). Please take the time to read through these materials closely. Throughout the summer, additional letters and information will be shared electronically by email and on our website: www.radnor.com/RDC. If you require paper correspondence, please let us know right away.

We are all very excited to kick off Radnor Day Camp 2023! Please remember if you have any questions or concerns throughout the summer, you can contact the Radnor Township Parks & Recreation Department at 610-688-5600. Starting the first day of camp, you can also reach the RDC Director by mobile phone at 610-955-4179 from 8:30 AM to 4:00 PM Monday to Friday. You can also send an email to radnortownshipdaycamp@gmail.com as well as recreation@radnor.org at any time.

On behalf of all of us here at Radnor Day Camp, we are looking forward to working together to make this summer fabulous for you and your children! We sincerely appreciate your consideration in making Radnor Day Camp your choice!

Radnor Day Camp – Camper Code of Conduct

Radnor Day Camp strives to promote a positive camp atmosphere where children can develop, learn, be safe and have fun. Respect and cooperation of other campers, staff members, equipment, and the facility are imperative to ensure the success of RDC. This includes camper conduct while riding camp buses, at designated camp bus stops, and at other destinations and field trips as applicable during summer camp.

Guidelines for camper behavior, including policies and procedures, are necessary for maintaining an orderly and respectful environment. Disorderly conduct of any kind will not be tolerated anywhere at camp. Disciplinary action will be taken at the discretion of the RDC/Radnor Recreation staff members, will be practical, and will be communicated with parents or guardians. Depending on the severity that is determined, the camper may be dismissed from camp for the remainder of the summer and/or for subsequent summers (length dependent on severity of misconduct and outcome of investigation). Refunds will not be issued if this occurs.

In order to communicate acceptable behaviors and disciplinary procedures, we ask that you carefully read below and explain to your camper the responsibilities for which they will be accountable this summer. This includes frequent hand washing with soap and water, or using hand sanitizer if hand washing is not possible; and using tissues to cover coughs and sneezes.

Please take a moment to review our Health and Safety Information and be sure to contact us with any questions. We encourage you to take a commonsense approach toward helping us maintain a healthy and safe camp environment this summer and always.

What you should know about...

Ticks &

Tick Borne Illnesses

Did you know that Pennsylvania has the highest number of reported cases of Lyme disease?

Protect yourself and your family:

You can protect yourself by following these simple steps when you spend time outdoors:

- Wear light-colored clothing with a tight weave to spot ticks & mosquito's easily.
- Wear enclosed shoes, long pants and a long-sleeved shirt. Tuck pant legs into socks or boots and shirt into pants.
- Check clothes and any exposed skin frequently for ticks while outdoors and check again once indoors.
- Consider using insect repellent. Follow label directions.
- Stay on cleared, well-traveled trails. Avoid contacting vegetation.
- Avoid sitting directly on the ground or on stonewalls.
- Keep long hair tied back, especially when gardening.

Signs and Symptoms of tick borne illnesses:

Many tickborne diseases can have similar signs and symptoms. If you have been bitten by a tick and develop the symptoms below within a few weeks, a health care provider should evaluate the following before deciding on a course of treatment:

- Your symptoms
- The geographic region in which you were bitten
- Diagnostic tests, if indicated by the symptoms and the region where you were bitten

The most common symptoms of tick-related illnesses are:

- **Fever/chills:** With all tickborne diseases, patients can experience fever at varying degrees and time of onset.
- **Aches and pains:** Tickborne disease symptoms include headache, fatigue, and muscle aches. With Lyme disease you may also experience joint pain. The severity and time of onset of these symptoms can depend on the disease and the patient's personal tolerance level.
- **Rash:** Lyme disease, southern tick-associated rash illness (STARI), Rocky Mountain spotted fever (RMSF), ehrlichiosis, and tularemia can result in distinctive rashes.
- ***Some symptoms of Lyme disease are similar to symptoms of COVID-19.***

HELLO summer camp... GOOD-BYE head lice!

Kids love summer camp. Unfortunately, head lice like camp just as much as your children do. Don't let the pesky problem keep your child from enjoying camp fun this summer.

As you prepare to send your child to camp, you should also prepare for the potential of head lice. Because kids at camp are in close proximity to each other, July and August are often the busiest months for head lice.

Be Proactive!

Head Checks are a MUST!

Before camp starts, be proactive and check your child for head lice. You can do this yourself or for a small fee have it done professionally at [Lice Clinics of America](#).

If your child has recently had lice and you've been treating it with over-the-counter products they may still have viable activity. [Super lice](#), found in 48 states, including PA, are resistant to most chemical treatments.

Head Contact and Hair Styles

99% of head lice cases occur from direct head-to-head contact. Lice have large claws (they do NOT fly or jump) which makes it easy for them to cling to the hair of their host. Children with longer hair can decrease their chances of catching lice by keeping their hair in buns, pony tails or braids. Reminding your kids not to put their heads next to their friends heads or share personal items (hats, combs etc) will dramatically reduce the chances of head lice spreading.

Keep Checking

Check your child's head regularly (once a week is recommended). Early detection is key to defeating head lice. A female louse can lay up to 10 eggs per day so the sooner you can detect, the better. Go through your child's hair with a metal tooth lice comb and watch for any excessive itching. Behind the ears and the nape of the neck are common spots to find lice eggs.

How to conduct a DIY head check.

Have your child sit in a chair, preferably outside. Using a rattail comb, chopstick or lice comb inspect the hair and scalp closely, looking for nits (eggs) attached to the hair shaft. A nit is teardrop shaped, as small as a poppy seed and glued to one side of the hair shaft, about a 1/8 inch from the scalp. It cannot be removed simply by blowing on it or flicking it with your finger. [Click here to view video.](#)

Prevention

Be diligent with the use of natural head lice preventative treatment products. There are many chemical-free products on the market including sprays, shampoos, conditioners and hair accessories. Clinical studies have shown that key ingredients such as **peppermint oil, citronella, tea tree and lavender** all help to fend off lice.
