

Green & Sustainable Park

CLEM MACRONE PARK RECEIVES
DCNR GREEN PARK AWARD!

One of Radnor Township's Most Treasured Parks

Located at 810 Conestoga Road, Bryn Mawr, this linear park spans 9.4 acres and was purchased in 1958 for inclusion in the Township's park system. Initial construction of the original amenities featured at the park was completed in 1968. Every summer, the park is well known for hosting the Garrett Hill 4th of July Parade and Picnic Celebration. A variety of active and passive recreation takes place at the park year-round as it is suitable for a wide-range of outdoor pursuits including tennis (courts are also lined for pickleball), basketball, baseball, soccer, family gatherings, picnicking, and nature walks.

The Park's First Major Improvement Effort

A community-based master plan process began in 2014 to evaluate a new layout of the park. After two years of discussions and planning, a comprehensive project took shape in 2017 to renovate and redesign many of the park's existing amenities including the basketball court, tennis courts, playground, parking lot, comfort station, and war memorial along with creating new park features such as the 0.4 mile walking path that spans the entire footprint of the park, a bandshell, and a picnic pavilion. Sustainable and green features were also incorporated park-wide and served as a backbone for the park's entire design and construction effort - an effort being recognized by the Pennsylvania Department of Conservation and Natural Resources!

Uniqueness is Its Specialty

Not only does the park capture an intense amount of active and passive recreational opportunities for everyone in a relatively small space, the park is also situated in one of the densest neighborhoods in Radnor Township (Garrett Hill) - this means many of the park's avid users can walk or ride their bikes to get there. A war memorial dawns the site's entrance and aptly celebrates fallen heroes from the Korean War and World War II. Further homage is paid near the park's massive playground to Garrett Hill Native, Janice Grant Berenstain, who is co-author and creator of the legendary children's books, the Berenstain Bears.
